A Bill Payment is a preauthorized transfer made from your designated deposit account based upon payment information provided by you. The Bill Payment Service permits you to direct payments from your Bill Payment Account to third parties (“payees”). Bill payment payees can be individuals or businesses.

Bill Payments can be made from a Checking or Money Market Account. All payments will be deducted from your designated Bill Payment Account, and you agree that we may debit your Bill Payment Account for such payments without requiring your signature on the item and without prior notice by you.

All Bill Payments must be payable in U.S. dollars to a payee located in the United States (including Guam, Puerto Rico, U.S. Virgin Islands and international U.S. military bases). You may not use the Bill Payment Service for any payments to organizations conducting business illegally. For payments to U.S. government agencies (IRS, taxes, child support, court fees, etc.) the Bill Payment Service has limited ability to research any issues that may arise due to the government’s strict adherence to the Consumer Privacy Act. The Bill Payment Service will not be responsible for any late fees or penalties that may be incurred for these types of payments. If you choose to initiate these types of payments, it will be your sole responsibility if these payments are delayed or improperly processed or credited. You may not use the Bill Payment Service to make payments to settle securities purchases or for insurance payments, court-ordered payments, overdue payments, alimony, or child support payments. We reserve the right, from time to time, to further restrict the types of payees to whom

bill payments may be made using the Bill Payment Service.

Scheduling Bill Payments

You may choose to schedule one-time payments or you may choose to schedule recurring payments for the same dollar amount to be paid at regular intervals. You should schedule a payment to a new payee, at least ten (10) business days before any payment due date in order to allow time for us to setup the payee and verify information about your account with the payee. We may make the payment either by transferring the funds electronically to the payee or by mailing the payee a check. You authorize us and any third party acting on our behalf to choose the most effective method to process your payment, including without limitation, electronic, paper, or some other means. If the payment is intended for a payee located in a U.S. Territory (including Guam, Puerto Rico, U.S. Virgin Islands and international military bases) or for a U.S. government agency, you must schedule it at least ten (10) business days prior to the due date shown on your invoice or provided in your agreement with the payee. If the payment is an electronic payment, you must schedule it to be made at least three (3) business days prior to the due date shown on your invoice or provided in your agreement with the payee, not taking into account any applicable grace period. If the payee cannot accept electronic payments and a check payment is to be made, you must schedule that payment to be made at least five (5) business days prior to the payment due date described above. You may schedule payments during the "grace period", but any late charges associated with these payments will be your responsibility regardless of the cause of the late payment. If you do not have sufficient funds in your Bill Payment Account on the scheduled payment date, your payment may be delayed. If you do not follow the time frames described above for scheduling payments or do not have sufficient funds in your Bill Payment Account, we shall not be liable for any failure to make payment. You will bear full responsibility for all penalties, late fees, finance charges, damages or other actions taken by the payee as a result of your scheduling. If you schedule your payment and follow all instructions provided, but the payment is not received by the payee in a timely manner, you may contact us at 800-657-3272 during normal operating hours. We will work with the payee on your behalf to attempt to have any late fees or charges reversed. The date the payee credits the payment depends upon the payee's payment processing procedures and East Boston Savings Bank will not be responsible for any delay in crediting the payment that is a result of the payee's payment processing procedures.

If the payee is a common payee the address may be changed to reflect the address through which that payee accepts remittances whether it is a check, electronic payment, or some other means. You will not have the ability to change this address online thereafter. If you move, or if the payee sends you a new address, you will need to enter a new payee into the system with the new address.

Bill Payment Stop Payments

You may initiate a stop payment request for items you initiated through Bill Pay only if they were sent via check and have not been negotiated. Bill Payments that were sent electronically may not be stopped. Bill Pay stop payments cannot be placed online. Please contact the Bank at 800-657-3272 during normal operating hours in order to place the Bill Pay stop payment. The request must be received at least one hour prior to the Bank's closing time to ensure enough time to place the stop payment. A stop payment request applies only to the check, which conforms EXACTLY to the description on the Bill Pay system. The Bank will not be responsible for failing to stop payment if the information you provided is not correct or sufficient or, the specific check cannot be identified in time to stop payment. If you make your stop payment by telephone, we may also require you to put your request in the form of a written notification and forward it to us within 14 days. Do not place your stop payment request through the Bank's online secure email as it may not allow enough time for the Bank to place the stop payment before it is negotiated. We will not be liable for paying a check over a stop payment request if the request is incomplete or, incorrect, or placed after the check has cleared, or if a written notification is required but not provided. You agree to access the appropriate account history (such as your Bill Pay resources) and determine whether the check you want stopped has or has not already been paid. You will incur stop payment charges as disclosed in the current Personal Service Fee Schedule for the applicable account. Bill Pay stop payments will fall under the normal stop payment fee. This request/notice will not be effective if the Bank has already cashed the check, or is already committed to honor or pay the item under applicable laws, regulations, or rules governing checks or ACH items.

If a Bill Pay check is outstanding for a period of 90 days a stop payment will automatically be placed on the check and the funds re-deposited back into your bill pay account.

Stopped check Bill Pays can take up to 48 hours to be re-deposited back into the Bill Pay account from the time the Bank is notified.

Bill Payment Limits

- The Per Item Maximum is \$9,999.99
- The Total Daily Maximum per Customer is \$10,000

These limits are subject to change at the Banks discretion.

Insufficient Funds

In either occurrence, you are responsible for any overdraft fees imposed as disclosed in our Personal Service Fee Schedule. Your Bill Payment Account may be blocked due to overdraft activity. If your Bill Payment Account is blocked, no additional Bill Payments will be processed until the account is properly funded and all outstanding payments or transfers have been cleared.

If a payment has been made to a payee for which funds are not available in your Bill Payment Account, and we are unable to recover the amount of the payment by debit to the payee or by charging your Bill Payment Account, you agree to repay the funds owed immediately upon demand.

Confirmation of Payments

Each time you properly execute and schedule a payment, the "My Bills" and "Scheduled Payments" screen will display the details of the payment including the Payment Confirmation Number in the "Payments Outbox". You understand that if your Bill Payment is suspended for any reason it may reach the payee late, or if the Bank declines the payment it will not reach the payee at all and the Bank shall not be liable. You, the customer, will bear full responsibility for all penalties, late fees, finance charges, damages or other actions taken by the payee as a result. We will notify you by mail at the address we have on file if we are unable to reach you and the payment has been declined by the Bank. In the event the payment was declined and it was truly sent by you, please contact the Bank prior to resubmitting the payment again so it is not flagged by the system and declined.

Some external accounts may not be eligible for this Service. For example, credit card accounts or some types of brokerage or investment accounts may not allow external transfers. It is your responsibility to verify processing restrictions with the financial institution at which you hold the account prior to initiating any transfers. The Bank assumes no liability for any fees you may receive from the receiving or sending financial institution.

Adding or Scheduling External Transfer Accounts

You will need your routing number and account number for the financial institution you want to transfer funds to and from. We cannot guarantee the date that an external transfer will be completed. Generally, an external transfer will be completed within 2-3 business days of the scheduled transfer date.

When you add a new external account or external transfer you will go through an enhanced security process called "One-Time Security Code" to verify your Identity. This will consist of you entering a 6 (six) digit security code received via SMS TXT into Consumer Online Banking or receiving a phone call from our processor, FIS, asking for the 6 (six) digit security code on the screen within Consumer Online Banking. The phone number(s) you use must be on file with the bank prior to adding your external account or external transfer. Once these transactions are verified the external account will be active. You may delete your external transfer during the account setup process only; once your account is activated you must contact the Bank to remove the external transfer account. A cancellation of the recurring payment or transfer instruction will affect all future payments or transfers associated with that payment or transfer.

Unless otherwise provided in this agreement, you may not stop payment on electronic fund transfers, therefore you should not employ electronic access for purchases of services unless you are satisfied that you will not need to stop payment. The initiation by you of certain electronic fund transfers from your account will, except as otherwise provided in this agreement, effectively eliminate your ability to stop payment on the transfer

We will not be liable for paying a check over a stop payment request if the request is incomplete or incorrect, or if a written notification is required but not provided. You agree to access the appropriate account history (such as prior account statements) and determine whether the check you want stopped has or has not already been paid. You will incur stop payment charges as disclosed in the current Personal Service Fee Schedule for the applicable account. This request/notice will not be effective if the Bank has already cashed the check or is already committed to honor or pay the item under applicable laws, regulations, or rules governing checks or ACH items.

In the case of a pre-authorized ACH debit, you understand that the originator has the capability to change the amount of the debit and that the Bank may not be able to stop any ACH debit other than the one conforming EXACTLY to the description you have given us on the form. If the item is a check, this request/notice must be received prior to any applicable Cutoff Hour and the Bank must have a reasonable time to act on the request/notice prior to the Cutoff Hour. If the item is an ACH debit, this request must be received by the Bank at least three (3) Business Days before the scheduled payment date.

Stop payment requests are valid for six (6) months whether written, oral, or electronic. After that time, the check may be paid and charged to your account unless you renew the stop payment request in writing for an additional fee. This request/notice will be cancelled if the account is closed or transferred. The request/notice is made subject to the terms of the Bank's deposit agreements in effect. You agree to indemnify, defend, and hold us harmless from all actions, claims, and damages related to, or arising from, our action in stopping payment on any check or ACH debit pursuant to your stop payment request.
